

Laurea Magistrale (MSc)
**MANAGEMENT
ENGINEERING**

POLITECNICO MILANO 1863

ELIGIBILITY

A Bachelor Degree in Management Engineering, in a technological subject or in economic studies

HIGHLIGHTS

Management Engineering trains professionals who are able to plan and to manage complex systems with a strong interaction among technical, economic and organizational variables. Management engineers cover a wide range of activities, such as designing and managing production and logistic systems, strategic planning, business organization, management control, corporate finance, managing technology, innovation, internationalization processes, internet applications and ICT. The programme is taught in English.

FEES

EU students: from about €900 to €3,900 per year.

Non-EU students: about €3,900 per year.

Milano Bovisa Campus
