For your best experience, is important to point out that every home and every student is unique; no home stay will be the same. Avoid comparisons and be flexible. Most important: try to make your stay the best one.

Acceptance of the program's rules and regulations

I hereby certify that I have read, understood and agreed with the Home Stay General Rules and Regulations. I also commit myself to follow them and express my goodwill to work for the success of the program.

I accept the fact that each student and home is unique. I will try to be flexible and develop the skills and attitude to meet, accept, and learn about the situations in another country; since this is part of the cultural experience.
